## Curriculum and Instruction (CI) Courses

### CI 3663. Interdisciplinary Project Based Learning. (3-0) 3 Credit Hours.

In this course, students will learn about interdisciplinary project-based learning through first-hand experience. Project-based learning is a student-driven teaching approach in which the learners identify and analyze a critical issue or problem, then work over a period of time to develop a possible solution, which is then shared with a public audience. The course will focus on both project-based teaching and learning approaches for all learners and across content areas. Generally Offered: Spring. Course Fees: \$20.54; STSH \$10.27.

### CI 4200. Secondary Professional Learning Community. (0-0) 0 Credit Hours.

Prerequisite: EED 2013 and EDP 3203; Admission to the Teacher Certification Program. Corequisites: CI 4203. This course is a professional learning community (PLC). The PLC serves as a touchstone in the secondary teacher certification program, bringing together preclinical and clinical teacher candidates within disciplinary areas to share and co-construct knowledge and skills applied to their field-based classroom experiences. By working in small groups of colleagues and peers, learning is emergent, responsive, and collaborative. Although the PLC is facilitated by faculty members with expertise in the specialty area, it is a vehicle for horizontal expertise where students and faculty alike share their expertise and insights. In this way, the PLC is a community of practice where teacher candidates come together to (a) share learning from various school- and community-based experiences and (b) synthesize learning through reflection and discussion on teaching and being a teacher. Multiple discipline-based sections will be offered each semester, and all preclinical and clinical teachers in a discipline will enroll in the same section throughout their program. Teacher candidates must pass the course with a CR to qualify for clinical teaching. This course will not be offered in the Summer. Formerly CI 4801, credit cannot be earned for both CI 4801 and CI 4200. Course Fee: LRH1 \$20.54; STSH \$10.27.

The course's focus on instructional equity is strengthened by the integration of culturally responsive/sustaining pedagogy, social-emotional learning, trauma-informed pedagogy, and restorative justice practices. Students will explore classroom ecology by examining the deep connection between a teacher's curricular and instructional choices and how it shapes the secondary classroom environment. Students will apply their developing knowledge of these concepts and skills by designing curricular materials that demonstrate the importance of fostering a healthy and supportive learning environment.
